

# SDM's UFO Sightings at Area 51

Below is a quote from Sean Morton in **UFOs and the Alien Presence**, a 1990 video tape produced by Michael Lindemann.

Probably the most amazing thing about Area 51 is the fact that this is literally the only place in the world where you can go out and actually see flying saucers on a timetable basis. You can literally go out there on a Wednesday night between about seven and one a.m. and you'll see these things flying up and down the valley. It's absolutely amazing. On even a bad night you'll have ten, eleven, twelve sightings. On a good night--and I've been out there with friends of mine camping--on a good night the sky will just rip open with these things. You'll see anywhere between twenty to forty objects in a night testing over the base for anywhere from fifteen and forty minutes at a time. You'll see these objects flying up and down the valley. We've had people where these objects have flown right over their heads as they've gotten out and fumbled for their cameras, and then shot away.
