

# Sean Morton, "World's Foremost UFO Researcher"

CLAIM: Sean Morton claims to be "The World's Foremost UFO Researcher"

SOURCE: Publicity photo on the wall of the Little A-Le-Inn, Rachel, Nevada, apparently provided to the owners by SM. The photo is not prominently displayed but is obscured by a jukebox. It have been there since at least Oct. 1993.

CONTENT: The photo shows SM meditating in the lotus position under a pyramid-shaped frame with a crystal hanging from the center, above SM's head. In the lower right corner of the photo is the inscription "Los Angeles Times," suggesting that this photo was published in that newspaper. "World's Foremost UFO Researcher" is written across the top of the photo, apparently by SM.

REFUTATION: Sean is known as WFMUFOR only to Sean. There is no supporting data to suggest that anyone else in the UFO field thinks this.
