After much consideration i must say that Glenn is of no use to people who are interested in area 51. He is much more concerned with making \$\$ off of his mail order business. He wants to write books about Hungary or whatever type of useless crap he does now. He seldom visits the area and makes only token gestures to lower the veil of secrecy that shrouds the area. If you read the last Groom lake desert rat you will see that there was barely no mention of groom lake at all. Personally I believe that glenn has been caught up on all the "expert" status that he has gotten.

Ever since the gov't closed freedom ridge and whitesides glenn has abandoned the fight. I will be the first to admit that glenn is the reason we all know as much as we do about the re but he has either given up the fight or just lost interest. We need to stop looking to glenn for anything substantial and spend our own resources discovering what is going on there. I hate to put glenn down, but to be honest, he has let us all down and it should be known that his time has past.

[BIG snip]

Then I suggest you withhold your \$5 "giltware" payment, it's obvious your not getting any entertainment from the Desert Rat.

Glenn has been very successful in his global strategy. He's saturated the Area 51 mail-order market, driving all the competition out of business, thereby capturing the whole Area 51 retail business for himself. Genius!

I understand the Commerce Department is looking into allegations of predatory and monopolization practices regarding Glenn and his enterprises. Maybe that's why he fled to Hungry ?

So I would hardly call Glenn "worthless", he is by all accounts the Bill Gates of Area 51 merchandise.....
