## Our Review

Opinion of the webmaster, subject to debate

Credibility	Research Value	Cultural Interest	Visual Information	Style	Silliness	Wow Factor	Bargain

### [Explanation of Ratings](#)

**Credibility = Very Low:** In general, this category is a rating of the author's intellectual discipline and the strength of his argument (which are very low), not the veracity of his claims (which could be true in spite of the weak argument).

Badges? **Badges??!** We don't need no stinkin' badges!! Well you do if you want to get into Area 51, and these little babies just might do it for you. Fabricated out of aluminum salvaged from downed UFOs, these badges are suitable for wearing on one's collar (indeed, per their instructions, they **must** be worn on the upper left portion of the chest at all times), with a small punchout at the top for a clip. The badges are available in several different metallic colors, each signifying a different security level, but if we told you what the levels were.... well, you know the rest. (Silver is the most popular.) In the unlikely event that your Area 51 parking pass gives the guards a pause, just flash this badge at them, and drive right on by. Of course, it might be wise to heed the translation of the bar code on the front of the badge: "Trust No One."

The colors listed above refer to the tint of the badges. (Silver is the most popular.) Otherwise, they are all identical. -- *tm*
