[Explanation of Ratings](#)

Credibility = Low: In general, this category is a rating of the author's intellectual discipline and the strength of his argument (which are low), not the veracity of his claims (which could be true in spite of the weak argument).

The end of the millennium is almost upon us, and to prove it, here is a calendar for the last 18 months of this century. This is the latest in a decade-long series of calendars by the world's best known UFO photo archivist, Wendelle Stevens. Each month is accompanied by a big glamour shot of a saucer hovering above the local terrain (and one diamond-shaped wedge). These are all supposedly real shots taken by UFO witnesses, but we guarantee only that the calendar is real and is suitable for hanging by Agent Mulder. The quality of the photos is Meier-esque. Distinct hubcap shaped objects hover over canyons, fields, houses, even a Lucky supermarket, in California, Arizona, Utah and Colorado. With each photo is a one-paragraph explanation about who took it and under what circumstances. Some previous calendars by Stevens have become collector's items. Being combined the weird vibrations of millenium, this one is a keeper.

Wendell Steven's calendars have typically become collector's items and have risen in value with passing years. -- *Glenn Campbell*
