Always supportive

### From the Book Cover

"Fascinating... Vallee has written another thoughtful and stimulating UFO book on a par with his ground-breaking *Anatomy of a Phenomenon* and *Challenge to Science*.... Highly recommended."

### Booklist

Dr. Jacques Vallee has been widely recognized and honored as the premier investigating scientist in the realm of UFO research today. Now, in this thrilling sequel to his bestseller DIMENSIONS, Dr. Vallee sweeps readers into the very real world of UFO sightings, contact, and (in some instances) abduction and injury.

Going far beyond theoretical analysis, Dr. Vallee meticulously documents his own firsthand investigations into sightings around the world. CONFRONTATIONS presents, often with breath-stopping dramatic impact, eyewitness accounts and case studies from the United States, Europe, and South America, where Dr. Vallee has personally investigated claims of UFO encounters and close, occasionally deadly, encounters. Complete with maps, sketches,

diagrams, and on-the-spot photographs, this study serves up a riveting, spine-chilling view of the UFO phenomenon - a phenomenon that has been viewed for too long by too many as benign.

### Acclaim from the experts for CONFRONTATIONS

"In Confrontations, Jacques Vallee has again shown why he should be regarded as perhaps our foremost contemporary UFO researcher. In this dark but deeply absorbing book, he has made the strongest case yet for his position that the reality of UFOs is far stranger, and even more ominous, than popular theories of extraterrestrial visitation would have us believe. His ideas may well lead to a renewed era of truly scientific study of a phenomenon we can no longer afford to ignore."

Dr. Kenneth Ring  
Author of *Heading Toward Omega*

"With this book, Jacques Vallee has added another important and reasoned analysis to his earlier and now classic considerations of the UFO conundrum.... Though many ufologists will not agree with his case against the extraterrestrial hypothesis, no serious student of UFOs (pro or con) should ignore this addition to the debate."

Marcello Truzzi, Ph.D.  
Director  
Center for Scientific Anomalies Research
