Our Review

Opinion of the webmaster, subject to debate

Deals with the history of alleged alien contact with humans from a different perspective than that of the 'extra-terrestrial hypothesis.' Vallee's premise is that UFO-nauts are actually beings from a parallel dimension and are the same entities described in the world's folkloric stories as elves, leprechans, djinn, faeries, devas, demons, angels, etc.

The acclaimed UFO authority reveals startling new facts about the earth, history of alien visitors-and how their acts have been repeatedly misinterpreted.

Million-Copy Bestselling Author Dr. Jacques Vallee With a foreword by Whitley Strieber

The truth about the aliens among us

Throughout the modern UFO era, thousands of honest scientists and informed laymen have seen through the official denials, the suppressions, and the whitewash and realized that, indeed, we are not alone. To them, author Jacques Vallee, the world's most renowned UFO expert, presents a tantalizing question. What if-just if-these alien visitors are not from other planets? What if they have always been among us? What if we can finally prove the case to which so much evidence points: That they have lived on earth for centuries, perhaps from the beginning of time. That they may inhabit another dimension, a dimension so startlingly different from our own that our consciousness lurches to

experience it religiously. At once exhilarative and persuasive, Vallee's brilliant insights include a metaphysical odyssey through some of the most mystifying incidents in religious and mythological lore. The miraculous visions of Lady of Fatima in 1917. The "cloudships" said to have visited medieval France. The ancient Tzeltal Indians of Mexico kidnapped by flying half humans. With his unparalleled knowledge of thousands of close encounters, Vallee-the UFO authority celebrated in Steven Spielberg's *Close Encounters of the Third Kind*-constructs and eye-opening, yet ultimately irresistible theory: one that reveals the shocking reality of the ever present, ever-powerful interdimensional aliens of Earth...and humanity's persistent inability to understand them.

About the Author

Dr. Jacques Vallee, a former principal investigator on Department of Defense computer networking projects, was born in France where he was trained in astrophysics. He moved to the United States in 1962 and received his Ph. D. in computer science in 1967 from Northwestern University, where he was a close associate of the late Dr. J. Allen Hynek. The author of numerous articles and three books about high technology, Dr. Vallee first became interested in the subject of UFOs when he witnessed the destruction of tracking tapes of unknown objects at a major observatory. His research into the phenomenon has taken him to many places in the U.S. and to many countries around the world, including France, Scotland, Australia, and Brazil. His unique approach to this phenomenon was crystallized when he served as the real-life model for the character of the French scientist played by Francois Truffaut in Steven Spielberg's film *Close Encounters of the Third Kind*.

Dr. Vallee lives in San Francisco with his wife and two children.
