Our Review

Opinion of the webmaster, subject to debate

brings it ALL together. You got your good aliens, you got your evil gubbermint MJ-12 types, who of course want to destroy the good aliens. Then you got your typical damsel in distress who just happens to be an astronomer at Los Alamos. A fair amount of gratuitous violence spices things up (no sex, sad to say). Oh yeah, did we mention abductions? Got plenty of those, all of which have lots to do with our beloved Area 51. Secret weapons too! (to destroy the good aliens, of course). Should you read this book? Sure, why not. We had to, why shouldn't you? Besides, with a name like "Dreamland", how can you NOT afford to read it?? Even as a work of fiction it makes more sense than some of the more wacky "fact" pieces out there. -- *tm*

Information from the Publisher

Always supportive

From the Book Cover

For the past eighth years Hilary Hemingway and her husband Jeffry P. Lindsay have researched the UFO enigma. They sat in on abductees hypnosis sessions, traveled to crop circles, and reviewed their findings with the Department of Defense. The startling result is *Dreamland: A novel of the UFO Cover-Up*, a fictionalized account of very real and frightening events surrounding an Air Force base in the Nevada desert. Known only as "Area 51" or "Dreamland", it is so secret it doesn't appear on any map.

In *Dreamland: A novel of the UFO Cover-Up* Hilary Hemingway, niece of Ernest, and Jeffry P. Lindsay have molded the evidence into a taut and suspenseful read. Their expose will make even the most skeptical readers question their assumptions about charges of a UFO cover-up.

"Riveting...Ripping good action... To reveal more would ruin a good ending that will leave readers breathless:

Booklist

"High energy and a clever concept"

Publishers Weekly

"This is one you won't want to miss"

The Washington Times

"A taut, suspenseful, and totally believable UFO mystery. How much does the government know about ET visitors? And how long have they known it? And when things go bad, how will it all turn out? You'll stay up late to find the

answers."

William Martin, *New York Times* bestselling author of *Cape Cod* and *Back Bay*

"Dreamland will leave you sleepless and prickle the hair on the back of your neck. You will never look at the night sky in the same way again."

Edna Buchanan, author of *Suitable for Framing*

"Seldom does a UFO cover-up story come around with Dreamland's depth of character and desperate sense of mission. It's a satisfying read from start to finish."

Jon Land, author of *Kingdom of the Seven*

"With Dreamland, the Hemingway writing dynasty continues as Hilary Hemingway, niece of Ernest Hemingway, and her husband Jeffry Lindsay, burst onto the thriller scene with this powerful novel that confronts one of the great controversies of our time. Dreamland is the ultimate novel of UFO suspense and deception, written with all the strength and power associated with the name Hemingway."

The Key West Citizen ·

"*Dreamland* is the *Communion* of the '90s, an edge-of-your-seat read that masterfully combines intrigue, high tech and simple human vulnerability. Hemingway and Lindsay have written a novel that shimmers with vitality."

Lorain Hemingway, author of *Walking Into the River*
