Our Review

Opinion of the webmaster, subject to debate

Credibility	Research Value	Cultural Interest	Visual Information	Style	Silliness	Wow Factor	Bargain
2	0	4	0	5	4	NR	3
Low	None	High	None	Stunning	High	Not Rated	Moderate

[Explanation of Ratings](#)

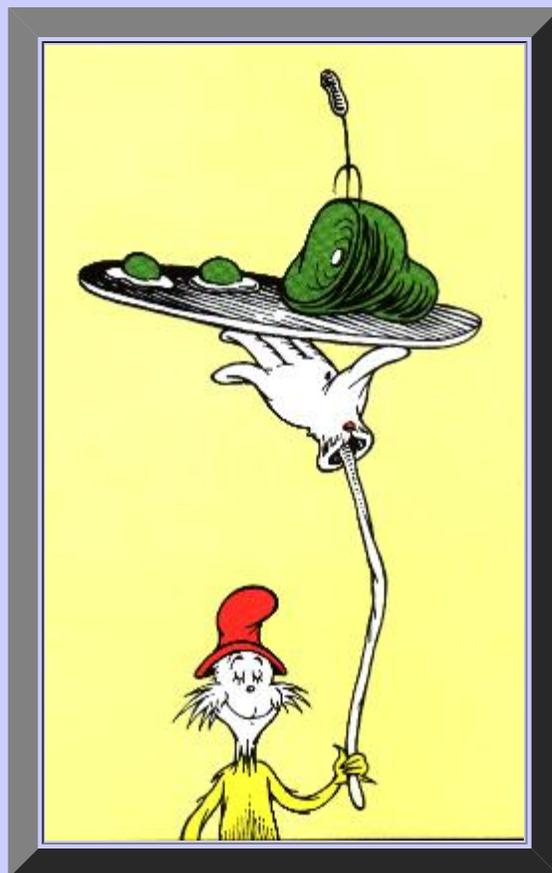

Credibility = Low: In general, this category is a rating of the author's intellectual discipline and the strength of his argument (which are low), not the veracity of his claims (which could be true in spite of the weak argument).

A parable for our modern age. This thin classic by D. Seuss provides an antidote to the "I don't like it; I'm not gonna try it, and you can't make me!" attitude that so dominates our culture these days. There are many truths and more than one doctoral thesis to be found in this little book, which you have probably read already.
