### [Explanation of Ratings](#)

**Credibility = Low:** In general, this category is a rating of the author's intellectual discipline and the strength of his argument (which are low), not the veracity of his claims (which could be true in spite of the weak argument).

So you're walking in the woods and you spot an alien. How do you identify it? Simple: you whip out your [Field Guide to Extraterrestrials](#) and look it up. When we first saw the title of this book, we assumed it was some sort of clever satire. However we were surprised to find it quite serious, even intriguing. Huyghe has assembled eyewitness reports from the best sightings and built a taxonomy around them. Grays, Reptilians, Nordics, Men in Black and dozens more... a drawing and curriculum vitae is provided for each species. Does it matter whether any of these aliens are real? (Personally, we'd be happy to prove just one alien species.) There are certainly real in the human folklore, and like a guide to elves and gnomes this book makes an amusing gift. -- *Glenn Campbell*

## Comparison to Other Books

Similar to [Faces of the Visitors](#). [Field Guide](#) offers better illustrations, while [Faces of the Visitors](#) offers more complete descriptions and documentation.

### Who Are They?

Since the late 1800s, there have been numerous documented reports of human encounters with extraterrestrial beings. In this unique and comprehensive volume, the first field guide ever devoted to extraterrestrials reported in UFO incidents, science writer Patrick Huyghe offers a fascinating overview of alien types witnessed throughout the past century. Each event is described in detail, based on eyewitness accounts, and is accompanied by a carefully rendered likeness of the lifeform encountered. With its detailed classification of alien types, *THE FIELD GUIDE TO EXTRATERRESTRIALS* is essential resource for anyone who wants to know who "they" are.
