Regarding "Aliens on Earth Bookstore" - Latest First

just wanted to let you know how impressed I am -- with how fast I got my book (today, actually), the cost of the book, and the shipping and handling charges (I know Priority mail costs at least three bones, and to add a mere dollar for your expenses is almost unheard-of). (Recently I bought a pair of shorts from Gallyans through the mail and they sent it UPS ground and tried to charge me \$10 for shipping and handling!) anyway, congratulations on the great bookstore. any book I buy in the future I'm checking to see if you have it first.

Your site is downright elegant! Easy to get around; not junked up with frames and such. Easy and quick. I look forward to receiving my order.

I ordered a video from you the other day. Yesterday evening I recieved a phone call from you in Las Vegas, America. The person I spoke to was concerned that I was ordering an American format video that would not work on our English PAL system.... I would like to say how pleased (no, blown over!!) I was at recieving a phone call direct from you showing your concern that you might have sold me a video I could not use knowing that you might lose a sale. Your customer service went beyond the call of duty, many thanks, most grateful. I will be using your services again and praising your services to friends.

I was truly blown away by the expertise and effort that you and your staff have put into your listings. My congratulations. If there were a prize to be awarded for offering the customer everything possible in a book-for-sale-listing, your company would win hands down!... Thanks for setting the best possible example for the rest of us in this business.
