From the Book Cover

Parting Visions is a brilliant and compassionate work that proves death-related dreams, premonitions, angelic encounters and visitations do exist. Using verified case studies and medical histories, *New York Times* best-selling author and respected physician Dr. Melvin Morse reveals an impressive array of confirmed spiritual experiences.

Reported by men, women and children who were dying, as well as loved ones who had precognitive visions that foretold a death, *Parting Visions* explores the five traits that make it possible to tell when real events are predicted by "dreams"; true accounts of lives that were changed by encounters with deceased loved ones; the frequency and accuracy of precognitive dreams; and evidence that proves life after death.

With a moving introduction by Betty J. Eadie, best-selling author of *Embraced by the Light*, *Parting Visions* is a keen, insightful analysis of a phenomenon that millions have experienced, but one that we are only just beginning to understand.
