Subject: The Prophets Conference - Zecharia Sitchin's Cosmic Code
Mime-Version: 1.0

The Prophets Conference Facilitation of Zecharia Sitchin's Cosmic Code
November 13-20, 1998

The western portion of the United States is the beginning venue for a world touring and teaching by Zecharia Sitchin, a scholar with an astonishing theory of our human history and origin. The Prophets Conference is taking this remarkable story on the road: Denver, Salt Lake City, San Diego, Santa Cruz, Berkeley and Seattle - November 13-20, 1998 (details below), to be followed by other cities and countries in 1999. This Cosmic Code Tour with Zecharia Sitchin is taking place as a vehicle for turning our history on its head and our perspective of reality into a spin. This is a call to wake up to who we really are.

Zecharia Sitchin, whose work challenges everything we thought we knew about human civilization, is considered by many to be the greatest historian of all time. Sitchin is one of a small number of orientalist who can read the Sumerian clay tablets, which trace Earth's and human events to the earliest times. He has a profound knowledge of modern and ancient Hebrew and of other Semitic and European languages, the Old Testament and the history and archaeology of the Near East. His Earth Chronicles series of books (in 13 languages) combine advances in modern science with textual and pictorial evidence from the past to form a cohesive and fact-based story of what had really happened on our planet in the past 450,000 years. His mind-stretching cosmology is a preparation for the imminent return of the Nibiruans, and the fulfillment of ancient prophecies. Although incredible, this body-of-work appears unchallengeable academically.

With a visionary's ardor and a scientist's attention to detail, Zecharia Sitchin gives a stunning account of human interaction with celestial travelers - the ultimate human experience. He also provides further proof that prophetic dreams, visions, UFO encounters, and other extraordinary phenomena are indeed the hallmark of intervention by intergalactic emissaries who reach out from other realms to enlighten, guide, and comfort us in times of need. Sitchin's research and theories chronicle a magnificent and inspiring journey through history, from the dawn of time to the approach of the millennium.

The Cosmic Code

Many thousands of years ago, a race of extraordinary visitors to planet Earth deciphered the cosmic code and used genetic engineering to short-circuit evolution and bring about Homosapiens. Their footprints include the vast monolithic structures on Earth and on the surface of Mars. Sitchin explores the events on Earth from the time that the Anunnaki ("Those Who From Heaven To Earth Came") had come here for gold, created The Adam as a primitive worker, and after the Deluge gave Mankind increasingly

sophisticated knowledge every 3,600 years, when their planet Nibiru comes closer to Earth. But the knowledge imbedded in the Cosmic Code remained an enigma.

In THE COSMIC CODE, the newest entry in a lifetime of research and writings based on Sumerian clay tablets, the Bible and archaeological evidence in the Old and New Worlds, Zecharia Sitchin lifts the veil that has separated humanity's fate from its destiny, and dares reveal the nature of Prophecy in the Old and New Testaments and the secret code that links Mankind to the stars. In doing so, he reconstructed the dramatic events of the last millennium BC, when a god returned to Earth and another came back from exile, and the last king of Babylon heard prophecies of the End of Days.

Cosmic Code Schedule

November 13 - DENVER, November 14 - SALT LAKE CITY, November 16 - SAN DIEGO,
November 18 - SANTA CRUZ, November 19 - BERKELEY, November 20 - SEATTLE

Zecharia Sitchin was born in Russia and raised in Palestine, where he acquired a profound knowledge of modern and ancient Hebrew, other Semitic and European languages, the Old Testament, and the history and archeology of the Near East. He is one of the few scholars who is able to read and understand Sumerian. Sitchin attended and graduated from the University of London, majoring in economic history. A leading journalist and editor in Israel for many years, he now lives and writes in New York. His books have been widely translated, converted to Braille for the blind, and featured on radio and television.
