Publisher's Synopsis

In "Area 51", Robert Doherty spun a meticulously researched tale with a shocking message: aliens exist and have visited Earth before, leaving behind nine spacecrafts discovered in the 1940s and stored in a top-secret facility in Nevada. The chilling story continues as one of the spacecraft, secretly being tested by the U.S. government on Easter Island, begins to emit a strange signal. Is it calling to its home world, or signaling to others here on Earth?
