From the Book Cover

In this companion volume to his groundbreaking book [Life After Life](#), Dr. Raymond Moody has uncovered more exciting evidence that suggests life after death actually exists. Dr. Moody has investigated hundreds of additional cases that confirm the striking similarities in the experiences of those who were close to death or pronounced clinically dead and revived. He reveals surprising new elements of near-death phenomena recorded here for the first time:

- Experiences of total enlightenment, universal love and perfect knowledge
- Beautiful cities of light where spirits dwell in peace and harmony
- A realm of lost souls who can't give up the physical world
- Supernatural guides who comfort -- and sometimes save -- a person at the moment of death
- Plus, near death experiences and suicide, biblical parallels, the reaction of clergy to near death phenomena and much more!

Dr. Moody's vital research brings us one step closer to unraveling mankind's greatest mystery -- and now tells us what these fascinating experiences can mean for us all.
