[Explanation of Ratings](#)

Credibility = High: With the except of the MJ-12 papers, the government documents given here are unquestionably authentic. However, the author's commentary is much less credible.

Visual Information = Very High: Documents reproduced in full-page format exactly as they appear.

Silliness = High: Commentary draws conclusions not supported by the documents.

Wow Factor = Surprising: Fascinating documents.

A fascinating collection of government documents regarding UFOs, obtained through FOIA. The size and weight of a telephone book, this volume offers a sampler of formerly-classified documents from the Air Force, FBI, NSA and various defense agencies. They report on sightings, studies and analyses during the period in which the government openly studied the UFO question. Included are portions of the final report on Project Twinkle, Air Intelligence Division Study #203, the July 1994 Weaver report on the Roswell Incident, and dozens of other interesting documents. The only weakness of this collection is the commentary by the author, which draws conspiratorial conclusions that do not seem to be supported by the documents themselves. There are also a lot of FOIA responses reproduced here that do not have much relevance. Fortunately, these diversions occupy less than a quarter of the book. The rest is authentic government paperwork (with the exception of the MJ-12 documents, whose origin is debatable). Well worth the price. -- *Glenn Campbell*

Reservations

The author's claims of a modern government UFO cover-up are poorly supported, as is the book jacket's claim that Stone "served for more than 20 years as a Nuclear/Biological/Chemical Retrieval Specialist assigned to UFO investigations and debris analysis." Although the book does not deliver what it promises, the government documents alone are well worth the price.

"THE AIR FORCE'S ROSWELL REPORT: CASE CLOSED AND OTHER UFO DENIALS ARE LIES!"

-- Sgt. Stone, The U.S. Army's 22-year UFO Investigator & Retrieval Specialist

DOCUMENTED EVIDENCE OF GOVERNMENT COVER-UPS, INCLUDING THE AIR FORCE'S RECENT "ROSWELL REPORT: CASE CLOSED"

Goes where no other UFO book has gone before: straight to U.S. government documents that verify many UFO sightings, investigations, and COVER-UPS.

Sergeant Clifford E. Stone has devoted his professional life to investigating UFO evidence. As a career he has worked with the U.S. Army, but he has also successfully battle against the armed forces and intelligence agencies to amass the world's biggest and best collection of official government documents on UFOs.

The evidence speaks for itself: UFOs are real and the U.S. government refuses to be candid with the American public and the inhabitants of Earth.

You will be amazed by the government documents, formerly classified as "Top Secret," involving UFO investigative reports and directed meant exclusively for armed forces personnel. Then, you'll be mystified by the doublespeak and misinformation provided to the public.

Sergeant Stone introduced you to a galaxy of contradictions from the U.S. government, which is obsessed with both sudyng and denying UFOs. This book asks all the tough questions, including:

- If the government insists that extraterrestrial craft don't exisit, why have there been so many expensive studies done on UFOs and their debris -- and why do these investigations still continue so secretively?
- What is so frightening about UFOs that our government feel we must be protected from knowing anything about them?
- If there are scores of government-documents unidentified craft that can easily outmaneuver our best jet fighters and penetrate the defenses over our nations capitol (July 1952), why does the Air Force insist that they are NOT a threat to our security?
- What does the government know? Why is the secret of UFOs worth lying about to congress and the American

people?

Sergeant Clifford E. Stone, U.S. Army (ret.) served for more than 20 years as a Nuclear/Biological/Chemical Retrieval Specialist assigned to UFO investigations and debris analysis. The boyhood sighting of a UFO only 150 feet away in 1957 turned Stone into a lifelong UFOlogist. He serves as Director of Research at Roswell, New Mexico's OFO Enigma Museum.
