Do you want to find the truth

I can't tell you how serious this is.To be honest with you I didn't know how serious the Roswell Coverup was until I read a book called "Beyond Roswell" by Michael Hessemann and Philip Mantle. This book was so in depth with reality. In this book you can see actual documents from the team that conducted the cooverup (bomb group 309). Several members of the 309 bomb group have resigned with written testamony that "the weatherballoon was nothing more than something to divert the press. What I thought was so funny was that the 309 bomb group not only desiged the atomic bomb they also dropped it!
