[Explanation of Ratings](#)

Credibility = High: Each case has its own level of credibility, but the presentation is highly disciplined.

A substantial casebook of UFO sightings in which some sort of interaction took place between the UFO and witnesses. 242 cases are reported. Each report is 1-3 pages and is given in a standardized format, including references. Introductory material describes the various classification systems used for these sightings.

One of the most interesting new releases of 1999.

From the Book Cover

CE-5 is the ultimate reference of real data on the hottest topic in UFOs. This book documents, explains and questions nearly 250 incidents from around the world where people have deliberately tried to have contact with UFO phenomena or alien beings and succeeded. Scientists and paranormal experts refer to these situations as Close Encounters of the Fifth Kind -- or CE-5.

Exhaustively researched and thoroughly referenced, CE-5 was compiled from technical data and research and personal interviews with witnesses. Dealing with both "traditional" aerial UFO encounters and encounters with alien humanoids, CE-5 unwraps the mysteries of the paranormal and gives you the complete reference information you need to answer questions such as:

- What characterizes the visitors' behavior?
- How do UFOs react to friendly human contact?
- How do they react to hostile human contact?
- Who is the real aggressor?
