### [Explanation of Ratings](#)

There is no certification board for psychics, so we are suspicious of any "top 100" listing. Still, this book might be worth the price as a reference book if you are researching psychics. Each entry includes the psychic's photo, address, phone number and speciality. This is followed by a 3-page interview with them. The interview is "friendly," with no hard questions asked and not many personal details given.

### Reservations

All information is provided by the psychics themselves, with no skepticism attempted.
