Information from the Publisher

Always supportive

From the Book Jacket...

If you believe that communication with those on the other side is impossible, or that only professionally trained psychics can cross that boundary, the evidence in this provocative book will surprise you. Dr. Raymond Moody, the first medical professional to explore near-death experiences, shows that it is possible -- not even difficult for all of us to make contact with our loved ones virtually whenever we choose, without the help of a medium. Grounded in historical and anthropological data, his stunning findings promise to launch even more research and give comfort to people around the world.

From the Publisher...

The bestselling author of *Life After Life*, along with the co-author of *Closer to the Light*, now shows that it is possible--not even difficult--for all of us to make contact with our loved ones virtually whenever we choose, without the help of a medium. Filled with historical and literary accounts, this book will give pause even to skeptics.
