Publisher's Synopsis

How authentic are reports of UFO sightings? Is there any proof of intelligent life beyond our planet? With tales of sightings on the increase, this book by the author of the bestselling *Chariots of the Gods* presents proof based on further evidence that we have been subjected to countless visits from beyond Earth.

From the Book Cover

As we approach the end of the millennium, interest continues to grow in the possibility of extraterrestrial life. UFO sightings and alleged abductions make headlines across the world and the likelihood of visitors from other galaxies has never been stronger.

This latest work from renowned writer Erich von Däniken puts forward the controversial proposition that we have been subject to countless visits from beyond this planet for many years. The culmination of long-term research, his masterly book argues that we are very much in the minds and eyes of other cosmic life-forms and that, as a result, many of the dramatic events and remarkable teachings of religious texts should be re-interpreted -- even the idea of Judgement Day itself.

Profound and persuasively argued, this remarkable book is the result of the author's painstaking research to prove that mankind's isolation is over. It includes:

- a coherent theory about the nature of extraterrestrials and their effects on our genetic make-up
- examination of ancient texts from many cultures and religions in the light of this research
- contemporary accounts of past and present visits
- ancient drawings of strange beasts which might have been created by genetic experiments

Erich von Däniken came to prominence in the 1970s with his bestseller [Chariots of the Gods?](#) and has since written many books on a similar theme. He continues his research from his home in Switzerland and remains a passionate advocate of the reality of extraterrestrial visits.

Includes 30 color photos.
