Our Review

Opinion of the webmaster, subject to debate

UFOs from a New Zealand perspective. On first inspection, this seems to be a reasonable local study of UFOs, with little rehashing of worldwide claims. Where foreign cases are mentioned, it is usually in relation to New Zealand ones. New Zealand is not a very big country, so there are not a lot of cases, so those described seem well documented, including photos and drawings. Includes an 11-page declassified report from the New Zealand Defence Force on the Kaikoura radar-visual sighting, arguing that in favor of

natural phenomena. -- *Glenn Campbell*
