Our Review				Opinion of the webmaster, subject to debate			
Credibility	Research Value	Cultural Interest	Visual Information	Style	Silliness	Wow Factor	Bargain
<b>2</b>	<b>3</b>	<b>4</b>	<b>4</b>	<b>5</b>	<b>4</b>	<b>4</b>	<b>4</b>
Low	Moderate	High	High	Stunning	High	Surprising	High
<a href="#">Explanation of Ratings</a>							
<p><b>Credibility = Low:</b> In general, this category is a rating of the author's intellectual discipline and the strength of his argument (which are low), not the veracity of his claims (which could be true in spite of the weak argument).</p> <p><b>Style = Stunning:</b> A beautifully designed book.</p> <p><b>Wow Factor = Surprising:</b> We are impressed with the sheer size of this book.</p> <p><b>Bargain = High:</b> Although the price is high, you get a lot of book for the money.</p>							

Although this book may seem expensive, it is beautifully produced and you get a lot of words and pictures for the money. The size and weight of a city telephone book, it impossible to read in one sitting and even more difficult to summarize and review. Abductions, cattle mutilations, crop circles, the Roswell alien autopsy and the MJ-12 "operations manual" are covered here. If nothing else, this book provides at lot of stimulation. We have read only parts of it and have found a lot of holes in Howe's research, discipline and logic. She accepts most testimony at face value, without significant skepticism, and in spite of her Emmys we do not trust her journalistic judgment. However, the sheer size of this volume tempts us to keep browsing. You don't "read" a book like this; you "mine" it, sifting through the low-quality ore for a few useful nuggets. Then, when you find something interesting, you seek out other sources to give you the full story. -- Glenn Campbell

## Publisher's Synopsis

[Glimpses of Other Realities, Volume II: High Strangeness](#) is the second book in a two volume non-fiction study of government, military and civilian evidence that a non-human intelligence is interacting with earth.

What started as environmental reporting on animal mutilations grew into a mission to uncover the truth behind the US Government's suppression of information on paranormal activity. This extensive in-depth report from journalist Linda Moulton Howe is the result of years of research through interviews and exploration into government cover-ups.

This book is a rational report about government accounts of unexplained phenomenon. Howe's analysis is supported by her extensive research and documents including top secret government reports and correspondence, excerpts from military manuals, historical newspaper articles and interviews with eye-witnesses, including military personnel.

## From the Book Cover

"As I read [Glimpses of Other Realities](#), I found myself in an almost permanent state of excitement. For anyone who has so far managed to sleep through the increasing furor about non-human intelligence, I cannot recommend a better alarm clock than Linda Moulton Howe's book."

-- Colin Wilson, author, [Mysteries](#)

What began as an Emmy award-winning television documentary about unusual livestock deaths exposed U.S. government knowledge and cover-up about non-human intelligence interacting with earth life. TV producer and journalist Linda Moulton Howe's [Glimpses of Other Realities](#) evolved from nearly two decades of field research throughout the world.

With a national Emmy nomination, three regional Emmys, a station Peabody award participant, and dozens of broadcast awards, Howe is internationally renowned for her investigations of environmental and social issues and phenomena such as animal mutilations, the crop circle mystery, human abduction syndrome and government policies of misinformation. Her productions have included the Fox Network 1991 special [UFO Report: Sightings](#), several documentary films and the books [An Alien Harvest](#) and [Glimpses of Other Realities - Volume 1: Facts & Eyewitnesses](#). Howe has been interviewed for national and international television programs including NBC's [The Mysterious Origins of Man](#) and [Larry King Live](#).

## About the Author

Linda Moulton Howe is a graduate of Stanford University with a Masters Degree in Communication. She has devoted her documentary film, television and radio career to productions concerning science, medicine and the environment.

Ms. Howe has received many local, national and international awards for her documentaries, including three regional Emmy's, a national Emmy nomination, medical producer participant in Boston's WCVB Station Excellence Peabody Award, Colorado's Florence Sabin Award for "outstanding contribution to public health," Aviation & Space Writers Association Award for Writing Excellence in television, and a Chicago Film Festival Golden Plaque. Some of her honored films have included [Fire In The Water](#) about hydrogen as an alternative energy source to fossil fuels; [A Radioactive Water](#) about uranium contamination of public drinking water in a Denver suburb; and [A Strange Harvest](#) about the worldwide animal mutilation mystery. Which has haunted the United States and other countries since the late 1960s - and continues to date.

In 1989, Ms. Howe was Director of International Programming for Earthbeat, an environmental series broadcast on Ted Turner's WTBS Superstation, Atlanta, Georgia. That year her first book was released entitled [An Alien Harvest](#) which

documented the history and unusual medical evidence of animal mutilations linked to a non-human intelligence. That work was followed in 1994 by [Glimpses of Other Realities, Volume 1 - Facts & Eyewitnesses](#), the companion to [Volume II - High Strangeness](#).
