[Explanation of Ratings](#)

Credibility = High: Each individual case has its own credibility, but listing is accurate.

February 1999 edition. This is one of the most extensive sighting lists ever put together, covering 1120 Aircraft-UFO encounter cases since the birth of flight. Each entry includes date, time, place, the type of aircraft involved, the kind of personnel reporting (pilot, co-pilot, etc.), a one-line description of the event and the source reference. The scope is international, with only about half of the entries being from the U.S. Also detailed descriptions of the few sightings prior to 1942. An important research document.
