Our Review

Opinion of the webmaster, subject to debate

Credibility	Research Value	Cultural Interest	Visual Information	Style	Silliness	Wow Factor	Bargain
5	5	3	0	2	2	4	3
Very High	Very High	Moderate	None	Awkward	Low	Surprising	Moderate

[Explanation of Ratings](#)

Credibility = Very High: Although the majority of the cases listed were ultimately explainable, the listing itself is certainly genuine. In general, this category is a rating of the author's intellectual discipline and the strength of his argument (which are very high), not the veracity of his claims (which could be false in spite of the strong argument).

A listing of all UFO reports collected by Project Blue Book -- over 12,000 of them. This official listing, prepared for the Condon Committee in the late 1960s, is the size of a telephone book. Each report gets one line, including the location, names of witnesses, investigation results, etc. Includes a brief introduction by Don Berliner and a key to the abbreviations used in the listings. The rest is over 200 pages of reproduced computer printouts. An important reference for serious Blue Book researchers. (The actual individual case files, heavily censored, may be viewed on microfilm at the National Archives.) -- *Glenn Campbell*

Reservations

This raw listing of cases may not be of much interest to casual readers, since this is only an index with no description of each case.

Comparison to Other Books

See [The Blue Book Unknowns](#) for a more useful listing of those cases that were not explained.
