

Top U.S. Senator Saw Two UFOs

One of the most powerful U.S. senators in modern history actually eyewitnessed two UFOs while on a fact-finding trip through Russia in 1935 — and the U.S. government has kept the sightings a secret for more than three decades!

The mysterious encounter is detailed in 19 top secret CIA, FBI and Air Force reports — and one report is classified — which have been obtained by The U.S. QUARTER.

Three striking reports in red ink inked in the files of the U.S. Senate — and the fact that the reports were classified — was a clear indication that the sightings were of great importance to the government. The reports were classified in the early 1950s, and they were not declassified until 1980.

The classified reports were also classified in the U.S. Air Force in 1950, and they were not declassified until 1980.

The three reports were also classified in the U.S. Navy in 1950, and they were not declassified until 1980.

The three reports were also classified in the U.S. Army in 1950, and they were not declassified until 1980.

The three reports were also classified in the U.S. Marine Corps in 1950, and they were not declassified until 1980.

The three reports were also classified in the U.S. Coast Guard in 1950, and they were not declassified until 1980.

Washington Kept It Under Wraps For 30 Years
