Our Review

Opinion of the webmaster, subject to debate

Credibility	Research Value	Cultural Interest	Visual Information	Style	Silliness	Wow Factor	Bargain
5	5	3	0	3	2	4	4
Very High	Very High	Moderate	None	Functional	Low	Surprising	High

[Explanation of Ratings](#)

Credibility = Very High: Contains an accurate listing of cases that were not explained by Blue Book. However, individual cases have their own separate credibility. In general, this category is a rating of the author's intellectual discipline and the strength of his argument (which are very high), not the veracity of his claims (which could be false in spite of the strong argument).

A listing of the 585 Blue Book "unknowns," the UFO sighting reports that the Air Force project had no ready explanation for. Sightings are listed in chronological order, from July 3, 1947, through Jan. 17, 1969. Each sighting gets a paragraph, including date, place, names of witnesses and a one-sentence description of the incident. This listing is unique in that witnesses names have been preserved, unlike the blacked-out reports currently available to the public. Includes a five-page introduction by Don Berliner describing how the list was assembled.

The descriptions alone make interesting reading, as we try to figure out what features these sightings have in common. (One common thread we saw throughout these sightings was vehicle interference: Car engines would die in the presence of a UFO, then mysteriously re-start.) -- *Glenn Campbell*

Comparison to Other Books

To most casual researchers, this is a more useful listing than the full [Blue Book Index](#), which lists every Blue Book case without explanation.
