Maps and Atlases

	Complete line of detailed topographic maps of every island.	
dehi Cover Image 	Hawaii (new, with gps) A traveller's best starting point for maps of Hawaii. All populated islands are covered at a scale of 1:84,000 with a city map of Central Honolulu at 1:33,000. Given its wide coverage, this atlas should be your first map purchase for Hawaii . It's main drawback is its poor rendition of unpaved roads. (There is no clear distinction between hiking trails, two track roads and maintained dirt roads.) With this book as a guide, you can then order more detailed USGS maps for places you plan to explore. (5/19/99) - Also listed on Delorme State Atlases .	\$16.95 book2 Add to cart
