Our Review

Opinion of the webmaster, subject to debate

A look into the private world of those who claim to have been abducted by aliens. Based on interviews with sixty individuals and more than 300 different accounts, Life portrays the phenomenon as a more negative experience than some other books in abduction literature (aliens stealing embryos and the like). Though Jacobs' methodology may be questionable to some -- Most of the testimony is revealed through hypnotic regression. -- it provides the reader with a good overview of the experiences that abductees report and offers a somewhat different view of the phenomenon than that of John Mack and Whitley Strieber. *This isn't the first abduction book we would buy -- Missing Time is a better introduction to the field. -- but if you've read Budd Hopkins' books and want more, this one provides additional case studies. -- Glenn Campbell*

ALIENS FROM OUTER SPACE ARE NOT HERE TO HELP US!

In *Secret Life*, Professor David M. Jacobs of Temple University takes us into the private world of those abducted by aliens, letting them describe in their own words what it is like to be abducted. Based on interviews with sixty individuals and more than 300 independently corroborated accounts, *Secret Life* presents the most complete and accurate picture of alien abductions ever compiled.

Dr. Jacobs takes the reader on a minute-by-minute journey through a typical abduction experience and describes in detail the bizarre physical, mental, and reproductive procedures that abductees claim have been administered by small alien beings. Jacobs draws from these interviews a profoundly unsettling reason behind the abductions: aliens are conducting a complex reproductive experiment involving the conception, gestation, or incubation of human and alien hybrid beings.

Secret life is a startling challenge to our notions of reality and truth--a scientific, soundly researched exploration of hundreds of encounters with aliens.

DAVID M. JACOBS is an Associate Professor of History at Temple University and a leading authority on unidentified flying objects. He is the author of *The UFO Controversy in America*.
