Our Review

Opinion of the webmaster, subject to debate

Although the title gives no clue, this book is a useful "sampler" of general information on the UFO field, focussing on places you can go, like Rachel, Roswell and Gulf Breeze. It has addresses for UFO organizations and summaries of the main historical cases. *Manual* covers a lot of territory and provides a practical introduction to the UFO subculture if not UFOs themselves. Useful as a starting point for studying the people and organizations who study UFOs. -- *Glenn Campbell*

Information from the Publisher

Always supportive

From the Book Cover

A UFO is the reported sighting of an object or light seen in the sky or on land, whose appearance, trajectory, actions, motions, lights, and colors do not have a logical, conventional, or natural explanation, and which cannot be explained, not only by the original witness, but by scientists or technical experts who try to make a common sense identification after examining the evidence.

- J. Allen Hynek, the Center for UFO Studies (CUFOS)

In that sublime moment I knew the mystery of life.

- UFO contactee Orfeo Antalucci, describing his encounter with a flying saucer.

So now these UFOs are appearing in the skies. Although they have always been observed they didn't signify anything. Now suddenly they seem to portend something - a hope, an expectation.

- Carl Gustav Jung, **Flying Saucers**

Table of Contents

- [Acknowledgements](#)
- [Introduction](#)
- **Chapter 1** The First Wave
- **Chapter 2** Ancient Skywatching: From Flying Dragons to Ghost Rockets
- **Chapter 3** The Second Wave: From the Craze to the Cover-up
