## Our Review

Opinion of the webmaster, subject to debate

This is the most detailed map of the Groom Lake Base available to the public this side of Freedom Ridge. If you had a better map than this, you'd be in jail! This map, although part of a 3 map set, may be purchased separately. The map is 19" x 25" and focuses on the buildings, roads, and facilities of the main part of the base. The map scale is a large 1" = 400' for easy reading and discerning of what's what. The map is in "pseudo blueline" style and is printed on high-quality 70 pound map stock. Prepared for the Area 51 Research Center by aviation historian Peter Merlin, based on satellite imagery and other sources. -- *tm*

This catalog provides the sole financial support for the [Ufomind website](#) and our many free on-line services.... Your purchases keep us going!

### More info on the Groom Lake map

An important feature of this map the building directory located along the right edge of the map. The directory lists and identifies over a whopping 190 structures around Groom Lake. Each building is identified with a brief description, and its "official" structure number, coded to its location on the map itself. For example, the huge hangar on the base is numbered as building 430, but is also known as "Hangar 18". Does the staff at Groom have a sense of humor, or is there more to it?

Note: Some of the outlying facilities listed in the building directory may not be shown on this detailed map of the main base area, but are found instead on one of the other two larger scale maps that are part of the entire mapset. The majority of the buildings and facilities in the building directory are on this map.

An incredible amount of research went into this map, making it a one of a kind document. This is a vital document and necessary reference for anyone with a strong interest in what's going on at Groom Lake.

Click on the thumbnail image below for a more detailed view of the map. Please be assured that the relatively poor quality of the scanned image here does not reflect that of the actual map itself. The map is a detailed, high quality, professionally printed document, but the blue color makes it difficult to accurately reproduce here.

#map1 - Buildings & Streets  
Scale: 1" = 400'  
Full building list included.

For additional details on this specific map, see this [enlarged sample gif of inner area of Groom base](#) from the map (#map1). (65k)
