Our Review

Opinion of the webmaster, subject to debate

Morehouse's book has provoked strong reactions from remote viewing insiders, most of whom seem to have little respect for him. Col. John Alexander, who participated in military remote viewing programs, writes: "This book is the epitome of hypocrisy.... There is abject disregard for truth. Do not buy this book. If you must read it, borrow it from the library." We do not disagree with Alexander's review, but something has changed since he wrote it. The book is now available in paperback, making the cost and guilt level more reasonable. Truth is certainly disregarded on the jacket cover. Instead of being "America's Foremost Psychic Spy" as the jacket claims, Morehouse was by most accounts only a minor player in the DIA's remote viewing program. Nonetheless, no one doubts that he participated, and the book conveys real experiences seen through one participant's eyes. Once you recognize that there are hidden tensions here and that many things have been left unsaid, the account is quite entertaining and readable. It is even more interesting when you read what others have to say about Morehouse and then try to figure out what is really going on. This is not the first book to read on remote viewing (that should be Schnabel's [Remote Viewers](#), followed by McMoneagle's [Mind Trek](#)), but if you are a serious student of the subject you probably ought to have it on your bookshelf, since it is certainly part of the culture and history of remote viewing. -- *Glenn Campbell*

From the Book Cover

"A Very Different Sort of War Story." --Kirkus Reviews

UNWITTINGLY PLUNGED INTO A PARANORMAL NIGHTMARE

DAVID MOREHOUSE - A highly decorated, exemplary Army officer, special operations infantryman, and elite Airborne Ranger Company Commander. Wounded by machine-gun fire during a training mission, Morehouse began to have inexplicable visions and haunting nightmares - an experience that would redirect his military career and land him in the government's top-secret Stargate Program. His life would never be the same...

STARGATE - For nearly two decades, the United States military intelligence community delved into the dark world of psychic espionage, recruiting a team of psychic spies to serve as "remote viewers," individuals who used their paranormal gifts to transcend time and space and uncover the highly guarded military secrets of other nations.

UNABLE TO TELL THE SHOCKING TRUTH FOR FEAR OF DEATH -- UNTIL NOW...

When David Morehouse walked through the doors of the Stargate Program, he had little idea what awaited him: a paranormal hell that would bring him to the front lines of some of the most horrific

disasters in recent history - and nearly destroy him. In chilling detail, Morehouse describes his psychic espionage work as a remote viewer, from the shattering explosion of Pan Am Flight 103 to the choking smoke of Desert Storm, even further back in time to Hiroshima and the darkest days of Nazi Germany. And more startling yet is his account of the U.S. government, an organization bent on the destructive use of psychic powers - and on stopping the one man who was brave enough to blow the lid off their top-secret Stargate Program.

A REAL LIFE X-FILES

"A DRAMATIC TALE TOLD WITH FLAIR." --Publishers Weekly

"The fact is this book is the epitome of hypocrisy. Morehouse, encouraged by St. Martins Press, has hit a series of topical "hot buttons" including, angels, Government assassination conspiracies, and Gulf War syndrome, family values, and wrapped them in the American flag. There is abject disregard for truth. Do not buy this book. If you must read it, borrow it from library."

"Psychic Warrior" stands out from the profusion of other spiritual books on the market these days. This is due, in part, to the quiet, convincing intensity of the writing and of the story. But it's also due to Morehouse, himself, a man who begins as a soldier, a minion of the military, and ends up as a spokesman for world peace and the evolution of human spirituality.

Reader Comments Regarding "Psychic Warrior" - Latest First

[Psychic Warrior... or Psychic Grandizement?](#)

This was the first book published on Remote Viewing that I first read. It reads more like "Two Stories". A Psychic Biographical life of a Remote Viewer doing cartwheels while living the life of a Military man. Though his personal life is one thing, The Remote Viewing side is another. There are points that are interesting and some "Not". In my opinion "Psychic Warrior"'s value is from Mr. Moorhouse's "Dark Side" of the Remote Viewing Program, and his struggle to not only understand Remote Viewing... but also himself. As one of the early Remote Viewers, This (sadly) might be why many in the program have mixed-feelings about Moorhouse the books POV.
