Our Review

Opinion of the webmaster, subject to debate

Credibility	Research Value	Cultural Interest	Visual Information	Style	Silliness	Wow Factor	Bargain
4	4	3	4	3	1	NR	4
High	High	Moderate	High	Functional	Very Low	Not Rated	High

[Explanation of Ratings](#)

Contains detailed road, relief and land-use maps for all parts of the state, as well as detailed street maps of the largest cities. Ideal for both travel and research. This book actually includes two statewide atlases: One is a set of shaded relief maps; the second is a set of maps in the same scale showing land ownership. Street maps of Albuquerque, Santa Fe, Las Cruces and Roswell are included, along with street indexes for each. This atlas is the equivalent of the Delorme series (which does not yet have a New Mexico atlas), and in many ways it is superior. -- *Glenn Campbell*

This catalog provides the sole financial support for the [Ufomind website](#) and our many free on-line services.... Your purchases keep us going!

Information from the Publisher

Always supportive

The text below is taken from the back cover. Each title below is linked to a sample map. (The relatively crude quality of the images here does not reflect that of the atlas itself.)

[Landscape Maps](#)

The world isn't flat, so why use maps that look that way? Landscape Maps show you not only the roads and towns, but also the mountains, arroyos and mesaa that make New Mexico such a great place to explore.

Relief shading makes the land appear three-dimensional while coloring shows altitude above sea level. Roads on the map don't just cross mountain ranges - they wind through foothills, climb over passes and drop down valleys on the other side.

[Public Lands Maps](#)

Find out who owns and manages the land you'd like to explore. State and Federal forests and rangelands, parks, tribal lands, military bases and wildlife refuges are all color coded for easy reference.

Over one third of New Mexico is managed by Federal agencies and another fifth is under State or indian trobal control. Ten different types of public or Indian lands are shown with a key on each page. You can see both where you are and who owns or manages the land.

[City Street Maps](#)

Complete, detailed street maps of Albuquerque, Las Cruces, Rio Rancho, Roswell and Santa Fe compiled by exhaustive on-the-ground surveys in 1995. Includes every street for these cities - from major highways down to dirt roads. These maps show neighborhoods, parks, hospitals, shopping districts, schools and other vital information. The most authoritative and easy-to-read maps ever made of New Mexico's most important cities.

Indexes

In addition to street indexes for the largest cities, statewide indexes are included in the back of the atlas for...

- Cities and Towns
- Counties and County Seats
- State Parks and Monuments
- National Forests, Parks and Monuments
- Indian Reservations
- Campgrounds
- Lakes and Reservoirs
- Mountain Ranges, Peaks and Other Physical Features

Also included:

- A 4-page table of recreation sites and their amenities.
- A national highways map
- A statewide road map
