## Our Review

Opinion of the webmaster, subject to debate

Are there things to do in Nevada other than chase aliens, gamble or buffet? Many would say no, but author Bruce Grubbs disagrees. He presents 80 fine hikes throughout the State of Nevada, including 20 in close

proximity to Las Vegas, including the striking Red Rock area, a mere 30 minutes north of the Strip. This book contains clear maps and directions for the hikes, rates their difficulty, and adds other pertinent info needed to ensure you survive the experience. Remember, you can always buffet afterward with a clear conscience. This book provides a good back-up activity for those times the aliens just refuse to show. This is the newly revised and expanded edition. (Formerly titled The Hiker's Guide to Nevada.) -- *tm*
