Secret Air Base

The government
doesn't want
you to know

what's going on at Groom Lake.

Behind the scenes, the facility has
employed the U-2 & SR-71

Blackbird spy planes. What's
really in there? Is it a hub for weapons,

and now the Air Force wants to

grab 4,000

ACRES of public land to bury nuclear missiles. And, are

there really projects underway that citizens have a
right to know about?
