Information from the Publisher

Always supportive

From the Book Cover

'PLENTY OF NEW IDEAS... HIGHLY READABLE AND VERY CONTROVERSIAL'

-- Robert Bauval, bestselling author of [The Orion Mystery](#) and [Keeper of Genesis](#)

- How - and why - flesh-and-blood 'gods' created us in their own image
- Proof that Adam lived for 93,000 years
- The Great Pyramid, the Sphinx, the Nazca Lines, Easter Island, the Maya and more
- The cause of the Flood, the Tower of Babel and the nuclear destruction of Sodom and Gomorrah
- The flesh-and-blood 'god' of the Bible -- Yahweh's true identity and secret agenda

The appearance of [Homo sapiens](#) 200,000 years ago defies the principles of evolutionary theory, whilst the Biblical account of divine creation defies the laws of physics. And yet we are here, and that fact needs to be explained. This book -- the culmination of ten years of research -- uses scientific evidence to ask and answer the most fundamental questions of human origins and history. Alan Alford's earth-shattering conclusion is that we are the hybrid offspring of an extraterrestrial race, and that we may literally be about to meet our makers -- the GODS OF THE NEW MILLENNIUM.

'Be prepared to be blown away by theories which may literally change your life... The importance of this book goes far beyond a revision of mankind's history.' -- [Alien Encounters](#)
