ASTONISHING NEW UFO EVIDENCE CONFIRMED

On November 11, 1987, Ed Walters, a successful builder-contractor in Gulf Breeze, Florida, notices an unusual glow behind the thirty-foot pine tree in his yard. He stepped outside to what seemed like a scene from a Spielberg movie. Except it was real. Hovering overhead in eerie silence was a large, glowing, bluish gray craft. Ed Stared in disbelief -- and ran for his Polaroid camera. Knees trembling, he moved quickly, aiming his camera at the pulsing, throbbing mass of energy. Bang! Something hit him. He couldn't move. Encompassed in a blue light beam, he was lifted from the ground. Rapid visions. Strange voices. No air. Panic. Then nothing. He was back on the ground. The blue light was gone. The craft had disappeared. But Ed had the pictures.

In the weeks that followed, additional sightings were shared by Ed's wife and family and corroborated by hundreds of residents in the Gulf Breeze area. The amazingly clear, close-up photographs presented here have been authenticated by professional photographic analysts, including an optical physicist with the U.S. Navy, and by top technical experts with the Polaroid Corporation. Together with Ed and Frances Walters' riveting firsthand account, they provide the most stunning and persuasive UFO evidence to date.

"This account weighs in as the most level-headed and believable of first-person UFO tales. That, plus the startling photos, add up to a book that will intrigue many."

Regarding "The Gulf Breeze Sightings" - Latest First

A reveiw on "The Gulf Breeze Sightings" by Ed Walters.

I read this book, and it is a well written book. Walters shows the evidence that he has and debunks the critics theories. The information is always in the right order. (Example: He does not go from sighting one to sighting five) He has evidence, and hundreds of other sightings and other people taking photos. This is a must have for anyone interested in UFO's.
