### [Explanation of Ratings](#)

**Credibility = Very Low:** In general, this category is a rating of the author's intellectual discipline and the strength of his argument (which are very low), not the veracity of his claims (which could be true in spite of the weak argument).

**Silliness = Very High:** High silliness isn't necessarily a bad thing. Such items often make amusing gifts or may be interesting as cultural artifacts.

Prof. Brown tells us about the alien agenda based on his remote viewing sessions.

### From the Book Cover

THIS SHOCKING AND ULTIMATELY INSPIRING BOOK REVEALS VITAL NEW DATA ABOUT ALIEN VISITS TO EARTH!

In this fascinating book, distinguished university professor Courtney Brown reveals that at least two alien civilizations have been, and continue to be, intimately involved with Earth humans:

**A Martian race who, having barely survived an ancient natural catastrophe on the own world, still struggle to survive on their nearly dead planet and in hidden retreats here on Earth.**

**The Greys, a highly advanced humanoid people, who nearly destroyed themselves by wanton abuse of their environment and who now seek to advance their own evolution.**

Further discoveries are even more astonishing and incredible -- Brown actually observed and interacted with a distant galactic federation of extraterrestrial civilizations, which humans, if they survive Earth's coming planetary crises, may one day join. This riveting and provocative account, based on unprecedented proff, breaks new ground in the search for extraterrestrials, and opens the door to the redefinition of life as we know it.

**"Investigates and documents the extraordinary phenomenon of intelligent life outside our planet!"**  
-- John E. Mack, M.D., author of [Abduction](#)

**"An extraordinary journey into the deepest mysteries of alien contact... compulsive, exciting."**  
-- Whitley Strieber, author of [Communion](#)
