Our Review

Credibility	Research Value	Cultural Interest	Visual Information	Style	Silliness	Wow Factor	Bargain

Very High	Very High	Very High	Very High	Stunning	Low	Surprising	Very High

[Explanation of Ratings](#)

Credibility = Very High: In general, this category is a rating of the author's intellectual discipline and the strength of his argument (which are very high), not the veracity of his claims (which could be false in spite of the strong argument).

We were pleasantly surprised by this comprehensive volume. We expected a book of dream symbolism -- e.g. what a dog is supposed to mean if it appears in your dreams. What we found instead was a rich encyclopedia of the history, anthropology and sociology of dreams. 250 entries cover everything from the role of dreams in ancient Greek mythology to profiles of modern dream researchers. A lengthy dictionary of 750 dream symbols and their supposed interpretations is also included, but only as an appendix. As with Lewis's [Angels A to Z](#), we would have never anticipated the broad range of information collected here. As with other Visible Ink encyclopedias, you get a lot for your money. Each alphabetical entry includes references. -- *Glenn Campbell*
