Publisher's Synopsis

The bestselling author of *Life After Life*, along with the co-author of *Closer to the Light*, now shows that it is possible--not even difficult--for all of us to make contact with our loved ones virtually whenever we choose, without the help of a medium. Filled with historical and literary accounts, this book will give pause even to skeptics.

From the Book Cover

If you believe that communication with those on the other side is impossible, or that only professionally trained psychics can cross that boundary, the evidence in this provocative book will surprise you. Dr. Raymond Moody, bestselling author of *Life After Life* and the first medical professional to explore near-death experiences, shows that it is possible -- not even difficult -- for all of us to make contact with our loved ones virtually whenever we choose, without the help of a medium.

By experimenting with such facilitators as mirrors, crystals, and specially designed chambers, Dr. Moody created an environment in which many unbiased, intelligent men and women have achieved amazing success in calling forth visions. Here are their own descriptions, recorded immediately afterward, of what they saw, heard, and felt during moments of precious closeness that left them confident they had been in the actual presence of their dead loved ones.

Grounded in solid historical and anthropological data, these case histories and Dr. Moody's own observations will give pause even to skeptics. As proof of life after death, his stunning findings promise to launch even more research and give comfort to people around the world.
