Publisher's Synopsis

An exciting UFO/Mystery/Spy novel by a noted behavioral scientist and specialist on humna-extraterrestrial encounters, dealing with the dramatic events leading to open acknowledgement of extraterrestrial visitation to earth.

From the Book Cover

(Fiction) Roger Maguire, a cultural anthropologist, meets Barbara Catalina, a professional psychic, at an ancient Anasazi village site. They discover a mutual interest in ETs, fueled by a common bond in which both have experienced close encounters.

They learn of a secret plan for an alien landing which is to lead to a formal meeting between ETs and humans. Adding to the mystery is a rogue National Security Agency group called JANUS.

A Hopi Indian elder befriends Roger and provides secret predictions about the return of the Star People (extraterrestrials) and coming Earth cataclysms.

"Project Epiphany encapsulates highly probable events which could very well occur in the next few years. A delightful mix of romance, aliens, and intelligence agencies."
