## From the Book Cover

Originally published over two decades ago, John Keel's blockbuster revelations sent shock waves through the field of ufology and the paranormal. Keel's radical approach to viewing the unexplained provided the first major breakthrough, leading to an understanding of UFOs, poltergeists, angels, lake monsters and mothman as ultradimensional rather than extraterrestrial in origin.

Operation Trojan Horse deal with questions that remain unanswered to this day:

- Is there actually a massive conspiracy to keep the truth about flying saucers from the American people?
- Are some people being subjected to mind control and psychological injury by UFO activities?
- Who was the mysterious stranger who appeared in San Francisco in 1896, convincing two leading attorneys that he was the inventor of a marvelous new airship seen by thousands of people in the California skies?
- What roles do prophesy, the occult, and psychic phenomena play in the flying saucer mystery?
- Are UFOs part of a larger phenomenon which is primarily hostile to the human race?

John Keel is an internationally renowned investigator of UFO and paranormal phenomena. He has traveled the world in search of answers to questions that have puzzled mankind for centuries. He wrote his first article on UFOs in 1945, and his writings have since appeared in hundreds of newspapers and publications. Author of [The Mothman Prophecies](#), [The Complete Guide to Mysterious Beings](#), [The Eighth Tower](#) and [Disneyland of the Gods](#), John Keel currently resides in New York City.
