From the Book Cover

The Black Sun continues the intriguing revelations readers have come to expect from Peter Moon as he digs deeper than ever before into the mysterious synchronicities that have made his work so popular.

The Black Sun is an adventure in consciousness that reveals a vast array of new information. from the German flying saucer program to the SS mission into Tibet, we are led on a path that gives us the most insightful look ever into the Third Reich and the holy relics they sought in their ultimate quest: the Ark of the Covenant and the Holy Grail.

Going beyond the Spear of Destiny and other attempts to unlock the mysterious occultism of the Nazis, Peter Moon peers into the lab of the ancient alchemists and their white powdered gold in order to explain the secret meaning behind the Egyptian and Tibetan "Books of the Dead."
