From the Book Cover

With [The Alien Jigsaw](#), Katharina Wilson published information about the abduction phenomenon that had never before appeared in print. [The Alien Jigsaw Researcher's Supplement](#) completes one of the most detailed abduction cases ever published.

The [Researcher's Supplement](#) is for individuals who want to know more about Katharina's case. This book contains hypnosis transcripts that were summarized for the book, journal entries that were omitted from [The Alien Jigsaw](#), as well as a research paper correlating important physiological data with her abduction experiences. In addition, this book picks up where [The Alien Jigsaw](#) left off, giving the reader an overview of the year 1993 and a look at some new alien Beings.

"We go on the deck. I ask him, "Are you from the Pleiades?" The Being adamantly replies, "NO." I ask him where he is from. We look in the sky to see the Big Dipper. He says, "See the Ursa Major?" I reply, "Yes." The Being then tells me, "The star cluster to the right and below. The one with the triangle to the left and the little stars in between. Well, we're from that one..."

In her search for understanding and truth, Katherina designed a research table containing over one hundred queries relating to important questions and prevalent topics about the abduction phenomenon. She cross-referenced these with each of her 119 abduction experiences that she documents in her journal. This book reveals her important findings from her research table.

Katherina wants other abductees to realize the important insights that can be gained by keeping a journal and documenting their experiences. It is her hope that others will use this research supplement as a study guide for documenting and reporting information relating to abductions.

About the Author

As a referral contact for The Intruders Foundation and MUFON, her work with abductees involves creating a support group network in the state of Oregon. She served two years on the Board of Directors of The Northwest UFO Group and now devotes her time to speaking and writing about the alien abduction phenomenon.
