Publisher's Synopsis

"The book is about much more than out-of-body experiences. Over half is devoted to actual electronic mind control patents. I also discuss and document the esoteric relationship between NASA and Free Masonry, in particular a strong link to the 33rd degree Scottish Rite Temple just north of the White House, in Washington, DC. There is also substantial material on the kundalini, with pertinent documentation." -- Richard Sauder

From the Book Cover

"Kundalini Tales is a profound and fascinating journey into the deep of the mind, the soul and the hidden realities that have formed our world. Richard Sauder has a way of getting under the skin, of adventuring into places that most of us hardly notice and would never dare go. Thus this is a compelling journey, must reading for anyone who wants to explore the secrets behind and beneath human life and the human world."

--WHITLEY STRIEBER, author of Communion

In this page-turning follow-up to [Underground Bases and Tunnels: What is the Government Trying to Hide?](#), Dr. Richard Sauder, Ph.D. details significant personal episodes of spontaneous spiritual awakening, out-of-body journeys, encounters with secretive governmental powers, unambiguous daylight sightings of UFOs, highlights from his two trips to prison for performing nonviolent civil disobedience against nuclear weaponry during the Reagan years, and provocative research about the occult underpinnings of the U.S. space program. A breakthrough portion of the book focuses on reproductions of, and commentary on, actual U.S. patents that have been granted for technology that makes possible mind and thought manipulations from a remote distance. So convincing is Sauder's treatment of this topic that electronic machinery must now be added to temporal lobe disorder and psychosis as possible causes for voices in the head.

"Kundalini Tales is a spellbinding account of one man's extraordinary psychic experience. Richard Sauder's clean narrative style draws the reader directly into the events. This book is ~ impossible to put down. At the same | time, it is a serious chronicle of a remarkable metaphysical journey."

--SHELLEY THOMSON, President
San Francisco Tesla Society

(from the book)

"My spinal column was turbo-charged with what felt like 50,000 volts of rippling, crackling electricity that came surging up my spine with an ear-splitting roar and arced out of the top of my skull ... my heart chakra was opened and I could see all around me without any physical impediment ... not with my physical eyes ... or with the so-called third eye ... but with my heart."
