Features: Table of Contents, Index, Maps, Drawings

(You can remove items or change quantities later.)

OR call us: 702-227-1818 (8am-9pm daily PT)

Our Review

Opinion of the webmaster, subject to debate

In spite of the somewhat lurid subtitle, this is apparently a well researched guide to confirmed information on underground government facilities, including Cheyenne Mtn., FEMA facilities, tunnelling methods, etc. A primer on the "how and why" of underground construction. Includes many reproduced government documents, patent diagrams and photos of boring machines. The only irrelevancy is a chapter at the end on alien abduction, which departs into speculation and doesn't seem to fit. -- *Glenn Campbell*
