From the Book Cover

Modern technology...or knowledge of the ancients?

Space travel...Genetic engineering...Computer science...Astounding achievements as new as tomorrow. But stunning recent evidence proves that these ultramodern advances were known to our forefathers millions of yesterdays ago...as early as 3,000 years before the birth of Christ!

In this remarkable companion volume to his landmark [Earth Chronicles](#) series, author Zecharia Sitchin reexamines the teachings of the ancients in the light of mankind's latest scientific discoveries -- and uncovers breathtaking, never-before- revealed facts that challenge long-held, conventional beliefs about our planet and our species.
