Everything you need to know to read palms for fun or profit. This book doesn't try to prove that palmistry is valid or convey any scientific research; it only shows you what to look for in the lines of the hand and the shape of the fingers.

Everyone knows fingerprints are unique. But hands are unique, too -- and they can reveal what's unique about you.

The ancient art of pamistry looks for your fortune in the palms of your hands. But today we know that hands change constantly to reflect changes in life. This easy-to-follow guide explains how modern hand analysis uses skin patterns -- plus information about size, whape and curvature of the entire hand -- to reveal more than ever before!

Your hands are the true mirrors of your soul -- as well as your health and your history, you personality, special talents, and much more. You may not "talk with your hands"... but your ahdns have a lot to say... about you!
