Publisher's Synopsis

When nine atmospheric crafts of unknown origin were discovered in the Antarctic in the late 1940s, the U.S. government established Area 51 to study the abandoned technology. Dr. Hans Von Seeckt, who is the only original member of the secret research committee, has observed the marvelous craft in flight and witnessed a fantastic array of bizarre, unexplained phenomena. But Dr. Van Seeckt fears that the technology of the mothership is beyond our scope and an explosive threat to the entire planet. He must race against time to unlock the secret of the ship--and to the origins of mankind itself.
