## Our Review

Opinion of the webmaster, subject to debate

Kevin Randle methodically cuts the MJ-12 documents to shreds, along with their most vocal supporter, Stanton Friedman. Drawing on the work of several researchers, this short but fascinating document is the most devastating blow to the credibility of the alleged presidential briefing documents. Randle makes no secret of who he thinks faked them: Bill Moore. While Randle is not alone in this suspicion, no other document more clearly shows Moore's possible opportunity and motivation. Don't let yourself get hooked on the MJ-12 documents until you read this report. -- *Glenn Campbell*
